

PART CODE # PRESTIGE-SIZE-1WHITE

**100% TEXTURED POLYESTER WOVEN STRIPE
COVERLET FINISHED WITH SQUARE CORNERS**

AVAILABLE IN:

KING 105X95 / QUEEN 90X95 / DOUBLE 85X90 / TWIN 69X90

DECORATIVE SHEET SIZES:

KING 114X120 / QUEEN 96X120 / FULL 87X120 / TWIN 72X120

CUSTOM SIZES ARE MANUFACTURED AND AVAILABLE

LIMITED STOCK AT THIS TIME

PART CODE # PRESTIGE-SIZE-1WHITE

LAUNDRY PROCEDURE – SOIL RELEASE EVALUATION
BEDDING PROGRAM

1. Weight the samples and record in order to have a total of 4.0-lbs. in the wash load

Sample Identification	Weight (grams)
1-washing	35.0
5-washing sample	35.0
10-washing sample	35.0
15-washing sample	35.0
25-washing sample	35.0

1. Stain each test specimen with the various soiling agents (reference AATCC Test Method 130)
2. Fill the washer to high water level using hot water. Record the water temperature (140 F.).
3. Add 100-grams of AATCC test detergent to the Kenmore washing machine.
4. Start the water agitating, place ballast and test specimens in the washer. No more than 30-stains in the wash load.
5. Set the dial on the washer to run for 12-minutes and allow it to run through the normal wash cycle.
6. Set the tumble dryer to Normal/Permanent Press setting for 45-minutes.
7. Remove the samples from the dryer and lay flat.

Evaluate soil removal (5 rating is excellent and 1 is poor removal).

Results –Visual Observation

Sample I.D.	Betadine	Synthetic	Mustard	Ketchup
Initial	5.0	5.0	4.5	4.0
After 1 washing cycle	5.0	5.0	4.5	4.0
After 5 washing cycles	5.0	5.0	4.5	4.5
After 10 washing cycles	5.0	5.0	4.5	4.0
After 15 washing cycles	5.0	5.0	4.5	4.0
After 25 washing cycles	5.0	5.0	5.0	4.0
	5.0	5.0	5.0	4.5
